Loved people could discuss in chat while the presentations were going. Normally cannot come to AEJ since I have a lot of kids, so that was nice. Suggest the meeting to be virtual at intervals in the future. Like the idea of a hybrid conference in the future. Virtual conference was more affordable and accessible especially for people like moms etc.

Zoom live captioning feature would have been helpful to make the sessions more accessible. Miss meeting people in person. Functions to bookmark sessions like mobile apps would have been nice. Live meetings for posters would have been good. Registration issues – had to wait until 7/29 to register. Preferred asynchronous format like ICA. Never received my swag box. No searchable conference program online. The time difference is a bit of a restriction for especially international colleagues. Miss talking informally about ideas and politics. We could consider some smaller virtual conferencing throughout the year, too, like some other divisions. The registration was expensive for the virtual conference.

- Diversity, equity, inclusion, and justice discussion?
  - We could think about having an element in our paper reviewing process that provides value to research that prioritizes varying perspective, diversity, and inclusion.
- Other issues to discuss? None.
