Thoughts from the Head

Benjamin Johnson

Department of Advertising University of Florida

Division Head

benjaminjohnson@ufl.edu

The 2022 conference in Detroit is almost here. Our division has planned an excellent program for our return to the in-person conference. The quality of the peer-reviewed research is very high in the regular sessions, and we've partnered with some of our peer divisions and interest groups to sponsor exciting panels on teaching, research, and PF&R.

The Members' Meeting is in advance of the conference proper, and will take place on Wednesday, July 27, from 2:00-3:00pm Detroit time. We'll review the state of the division, highlight our award winners, and transition to a new leadership team. The Zoom registration link is available to members or via request.

would like to take this opportunity to **⊥**thank the division offers who made this year such a success. Magdalena Saldaña has been a phenomenal Vice Head who keeps CT&M moving forward. She will lead the division to even more success next year. Thank you, Dr. Saldaña! Next, Rosie Jahng stepped into the Research Chair this year. It is often the most demanding of positions, as it involves juggling many submissions, reviewers and their reviews, and issuing all those decisions. Dr. Jahng was stellar in this role, and brought together a fantastic set of scholarship. Lindsey Sherrill and Bryan Wang have represented teaching and PF&R this year, and their multi-year contributions to CT&M have been so important.

Next, Judith Rosenbaum and Slgi (Sage) Lee joined the executive com-

mittee this year. They've both been up to the challenge, and have been effective and persistent with their membership/Barrow Award and newsletter duties, respectively. Graduate student liaison is a important but hard-to-define job, and Kathryn Thier has been our advocate this year for growing the involvement of students in the division, which is important to us. Thank you! And last but certainly not least, Michael Vosburg and Grace Ahn have kept us going digitally, with the website and social media. Many thanks are due to them. CT&M is fortunate to have a dedicated team of officers, and we hope that several new officers will join our ranks for 2022-2023. At the Members' Meeting, we will take nominees and vote for new Membership/Barrow Chair and Newsletter Editor, along with selecting liaison(s) and digital media directors for the coming

Please join us for *The Best of CT&M* session on Friday, August 5 from 6:00-8:00pm. This session will include the presentation of some of our award-winning papers, and we will also hand out the physical awards for papers and other accomplishments.

Our off-site social will follow, from 8:15-9:45pm, at The Brakeman. You can RSVP at:

https://ufl.qualtrics.com/jfe/form/SV_3z3AnA4EzrNCD9s

Lastly, I am grateful for the opportunity to be a part of this division. CT&M is a very special group of scholars. Thank you all for your contributions and support!

Top Paper Awards for 2022

Rosie Jahng

Department of
Communication

Wayne State University

Research Chair

The CT&M division received a strong set of paper submissions for 2022 AEJMC Conference. The reviewers has shared their insights and expertise with the authors, where each reviewer received 2-4 manuscripts. A total of 56 papers were initially submitted and 1 was disqualified from the competition. This left 55 submissions (45 full papers and 10 extended abstracts) that went through peer review process. 28 manuscripts were accepted for the conference, which included 8 of student-only papers. The acceptance rate for the division was at 50%.

The Top Faculty and Top Theory Paper award goes to Hang Lu (Michigan). The paper title is 'I feel what most people feel: Testing the sequential mediation model of emotion consensus messaging.

Our second-place faculty paper is awarded to Dongdong Yang and David Atkin (Connecticut), A meta analysis on the influence of media multitasking on enjoyment. The third-place faculty paper is 'Why wouldn't anyone let other participate in democracy?: Obstinate parsianship, conspiracy beliefs, and political repression by Homero Gil de Zúñiga, Zicheng Cheng, and Rebeccal Schedffauer (Pennsylvania State).

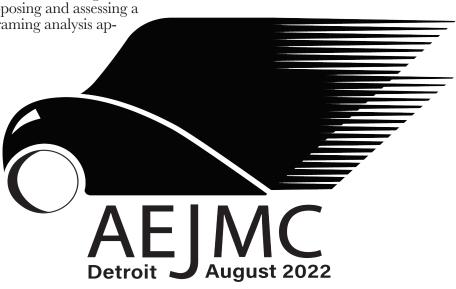

The Top Method Paper is awarded to Yanru Jian (California-Los Angeles), Community detection of the framing element network: Proposing and assessing a new computational framing analysis approach.

The 2022 Chaffee-McLeod Top Student paper award goes to Xiaoxiao Meng (Shanghai Jiao Tong), Conceptualizing and measuring privacy boundary turbulence in technological contexts: constructing a measurement scale.

The second top student paper is Environmental issue activation: How moral framing leads to attitude and behavior change by Alexandrea Matthews (Florida).

Finally the third top-student paper is awarded to Chelsea Yap, Jiah Lim, Melody Koh, and Aik Tan (Nanyang Technology), Does social media activism actually work?: Exploring the persuasive effects of social media activism against racism in Singapore.

The Best of CT&M session will be held on Friday August 5th from 6 to 8:00pm. Award winners will first be acknowledged during the virutal member's meeting on July 27th, 2022. The awards will be presented at the end of the Best of CT&M session. Congratulations to all those accepted to CT&M division for 2022 AEJMC conference as well as the award winners. I look forward to seeing you all in the Motor City.

Communication Methods & Measures

lus32@psu.edu

Last calendar year, 2021, was the Isecond year for the current editorial team (Ye Sun of City University of Hong Kong and Marko Bachl of University of Hohenheim as Associated Editors) at Communication Methods and Measures. CMM saw its Journal Impact Factor continuously on the rise in recent years and hit **8.04** for 2021 (ranks 1/94 in Communication journals). Its five-year JIF also hit an all-time high at 9.01 (ranks 3/94 in Communication journals). As submissions to CMM increase, the acceptance rate has dropped to about 6%.

We are handing out two Article of the Year Awards (2020 belated, and 2021).

Theo Araujo, Irina Lock, & Bob van de Velde. (2020). Automated Visual Content Analysis (AVCA) in Communication Research: A Protocol for Large Scale Image Classification with Pre-Trained Computer Vision Models. *Communication Methods and Measures*, 14(4), 239-265.

https://doi.org/10.1080/19312458.2020.1810648

Hyunjin Song & Jaeho Cho. (2021). Assessing (In)accuracy and Biases in Self-reported Measures of Exposure to Disagreement: Evidence from Linkage Analysis Using Digital Trace Data. Communication Methods and Measures, 15(3), 190-210. https://doi.org/10.1080/19312458.2021.1935824

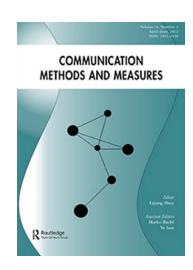

Congratulations to these authors for their excellent contributions to the journal.

Finally, there are two special issues under development and scheduled to be published in 2023:

The Special Issue on Dynamic Dyadic Systems Analysis of Conversation Data

The Special Issue on Bridging Social Sciences and Computational Methods

Please follow the journal's website, https://www.tandfonline.com/toc/hcms20/current, for details on these special issues and other calls for papers.
