

## PEER EVALUATION RATING FORM

The peer evaluation rating form is designed to allow each group member to assess the level of effort of each put forth by the other members of the team for the video/slide show. Carefully review the criteria listed on the form to determine if each group member's participation in the group project meets expectations. Answer the questions in the form for each team member.

Be sure to note your own name and the group members' names in the first row.

### Rating Scale: 0-5

For each item, you have five cookies available. Distribute the cookies according to each group member's contribution to the specific item. Consider the following scale as a guide:

0 cookies = very poor; did nothing

1 cookie = poor; did very little; not a team player

2 cookies = did what was minimally required

3 cookies = met expectations; a good member of the team

4 cookies = good; effort and results above average for the team

5 cookies = excellent; effort above and beyond the call of duty with high quality results

The instructor will keep each student's evaluation of the other group members strictly confidential.
